SCREW AIR COMPRESSOR

5-30 HP

MR
Air for Ever

MAIN FEATURES OF MR SCREW AIR COMPRESSORS

SCREW AIR COMPRESSORS

MR makes Screw Compressor assembled with GERMAN high efficient AIR END of wear free rolling profile with longest service life and simple maintenance.

Control System: Equipped with simple control system enable the operation of Air Compressor more reliable which could ensure Compressor running well continuously round the clock.

Air/oil Separation System: the three stage separation system viz centrifugal and gravitational separation with air oil separation elements reduces oil content to 2-3 PPM.

Simple Diagnostics: With visual indication of fault warning.

Safety Tripping Interlocks: For over load, high air oil temperature, high pressure and wrong direction of rotation ensure safe operation.

Main Features

High Efficient Air End
Wear Free Rolling Profile
Simple Control System
Safety Tripping Arrangements

TANK MOUNTED

Model	H P	Pressure		CFM	M3/Min	DB(A) (± 2) Mean Noise Level	Tank Capacity
		KG/CM2	PSIG
